

# Hoover SteamVac Carpet Cleaner with Clean Surge

The Hoover Steamvac Carpet Cleaner with 'Clean Surge' technology is one of the finest steam cleaners available on the market today and receives top marks from almost every reviewer that has owned or used one.

Owning your own steam cleaner means that you will never again have to go through the hassle of the renting process, no down-payments, no pick-ups, no drop offs and no units that don't work as well as they should due to years of neglect in the rental circuit.

The Hoover Steamvac is perfect for keeping all of your carpets, rugs, upholstery and even bare floors (not hardwood!) looking like brand new. The unit combines five spinning brushes and a 12 amp motor to ensure a powerful and thorough clean that can be adjusted between high and low settings to make sure you have the right cleaning power for the job.

Sporting such features as dual water tanks that automatically mix the right amount of cleaners and an 8 foot hose with special cleaning nozzles for specialty jobs like upholstery and stairs this is truly a do-it-all unit that you won't need to replace for a very long time.

Features:

- Applies heat to your surface to help decrease the drying time
- 8 foot hose provides ample reach
- On-board Accessories for any job
- Apply extra detergent at the touch of a button for extra cleaning power

The Reviews

It's actually really hard to find anyone who has anything bad to say about the Hoover Steamvac! Anyone who has owned the unit tends to give it top notch reviews and even the reviewers who do have any criticisms are still quite quick to say that overall this is one of the best steam cleaners available today.

Hoover has a great reputation in this area so I guess it's no surprise that their top model should receive such great reviews but let's take a quick look at some of the minor problems anyways.

One thing you should know is that while the manufacturers' description states that this unit does clean bare floors, it is not very clear about the fact that you do need to purchase a separate attachment. One reviewer was rather upset about this fact because they were having a hard time finding the unit but was relieved when someone else showed them where it could be found on the manufacturers website.

Another minor complaint about the Hoover is that it is slightly louder than its predecessor however the reviewer was quick to point out that this unit actually operates and cleans better than the old one!

Any warranty issues that have been mentioned have all been pleasant experiences with many reviewers coming back to update their reviews with how great the whole experience was. When purchasing items

such as these there is always a small possibility for a manufacturers defect and it's always good to know that the company you are dealing with is quick, courteous and reliable. Hoover seems to fall into these categories.

Many people who now own this unit have owned previous Hoovers in the past and brand loyalty seems to be very good amongst Hoover owners which is also a very good sign.

If you're in the market for a new steam cleaner then you owe it to yourself to strongly consider the Hoover SteamVac.
